## About the Diploma

The NEBOSH National Diploma is the globally recognised qualification for aspiring health and safety professionals. It is designed to provide students with the expertise required to undertake a career as a safety and health practitioner and also provides a sound basis for progression to postgraduate study.

When it comes to senior health and safety positions, the NEBOSH National Diploma is highly sought after by employers. It is recognised by IOSH – the Institution of Occupational Safety and Health – as fulfilling the academic requirements for Graduate Membership (GradIOSH), which can lead to the awarding of the title of Chartered Safety and Health Practitioner.

This highly respected degree level course will require a high level of commitment and private study but the rewards will be well worth the effort.

## Course Structure and Assessment

The syllabus comprises four core units:

- **Unit A Managing health and safety**
- **Unit B Hazardous agents in the workplace**
- **Unit C Workplace and work equipment safety**
- **Unit D Workplace-based assignment**

Units A, B and C are assessed by written examination. Unit D is a workplace-based assignment requiring application of learning across the syllabus. A certificate is issued denoting successful achievement of each unit. On completion of all four units a Diploma qualification parchment is presented.

## Course Duration

Unit A	11 days plus private study
Unit B	10 days plus private study
Unit C	10 days plus private study
Unit D	Assignment

## Revision Support

Our mock exam/revision days are invaluable in preparing students for their written examinations. These are available to those who study via distance learning - please call us to discuss.

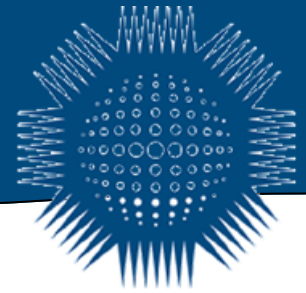

From NEBOSH's survey of successful students, over 95% of respondents would recommend this qualification to others
